

Sign and display

Bring your ideas to life with Spicers sign and display

Get noticed

About us

Spicers are a leading supplier of screen, wide and grand format printing encompassing consumables, hardware, software, accessories, training and support. From point-of-sale and vehicle graphics right through to exhibition stand construction and shop fit out, Spicers has a product to bring your sign and display ideas to life.

With our team of sign and display specialists, Spicers can provide you with information and expert advice. We are your local supplier with stock on the floor and a distribution network ready to deliver to you.

Environment

Spicers are FSC® and PEFC certified, offer a wide choice of environmentally friendly materials and operate under a Sustainable Supply Chain Policy.

Roll media

Spicers carry all of your roll media essentials as well as a collection of specialty products to help bring your creative ideas to life. We have media for aqueous, eco-solvent, UV curable, latex and LED ink technologies. Key brands include dtec banner, dtec paper, 3M™, Yupo®, Sihl, Omnijet, Kodak and Photo-Tex.

Rigid media

Spicers provides you with a market leading range of essential sign and display substrates, as well as some unique products that stand out from the crowd. Key brands include Yupo®, X-Board®, Corflute®, Skybond, Ace Screenboard and ARMABoard.

Finishing

If you require essential laminating products to protect your print and extend its longevity, Spicers can help you. Our range includes satin, matt, gloss and speciality anti-graffiti and textured floor graphic products.

Ink

OEM and 3rd party ink and toner for a vast range of digital wide and grand format printers are part of our offering. These include Mimaki®, EFI Vutek, EFI Rastek, HP, Canon, Epson, Mutoh and Colorific.

Hardware

Spicers hold a vast portfolio of wide and grand format printing and finishing equipment. We are proud to sell and support your complete hardware solution from suppliers such as Mimaki®, EFI Vutek, EFI Rastek, Fotoba International, ROLLSCROLLER Flatbed Applicator, Kala Laminators, HP, Canon and Epson.

Sales and distribution network

We boast a dedicated sales team and stock on the floor ready to deliver in Melbourne, Sydney, Brisbane, Townsville, Darwin, Perth, Adelaide, Canberra and Hobart.

Training and technical support

With years of experience, dating back to the birth of wide format inkjet, our service and support staff can offer technical guidance and assistance with RIPs, profiling, workflow, maintenance and repairs.

POS, POP and retail

1. Floor graphics

3M™ Scotchcal™ Graphic Film IJ35C-10 with **3M™ Scotchcal™ Lustre Overlaminate 3645** slip resistant textured laminate, or **dtec** floor graphic kits consist of a self adhesive vinyl and slip resistance rated, textured laminate.

2. Temporary wall panels

Vanity Board™, a direct printable mirrored acrylic panel, lighter and cheaper than glass, and shatter proof.

3. Bulkheads

X-Board® the versatile, direct printable, recycled, closed cell fibre sheet is perfect for light-weight, high-strength, sustainable bulkheads. Suitable for use with down lights.

4. Hanging signage

Ace Screenboard is a premium quality, high white, rigid, FSC® certified two side display board that can be either direct printed or used as a mounting board, and is well-suited to counter and header cards.

ARMABoard is a high opacity, light weight, bubble structured polypropylene sheet that is a sustainable replacement to foamed PVC. Perfect for standees and aisle end signage and is 100% recyclable code 5.

5. Posters

Echo Matt is a FSC® certified matt coated paper. Echo Matt is available in large format roll and sheet sizes for screen and UV Inkjet printing.

Eclipse Blockout is a two side printable, black centered artboard that promises no show through. Perfect for double sided posters.

6. Structural POP

X-Board® the versatile, recycled, closed cell fibre sheet, is a must for structural POP applications that require a high strength-to-weight ratio and freedom in design to create complex shapes and displays. X-Board® creates brand theatre, allowing you to showcase your products in a way that no other media can.

7. 3D dump bins

Corflute® is Australian made, twin wall polypropylene at its best. Used for short-term display, POS and packaging applications, it is fully recyclable and can be screen and UV Inkjet printed. Available in white and colours and is 100% recyclable code 5.

External displays

1. General signage

dtec Foamed PVC is a high white, high density board for flat or 3D applications, printed or fabricated. It is the ideal substrate for a range of sign and display projects.

Skybond Print aluminium composite panel is available in a range of thicknesses and colours, and carries a 10 year warranty. Ideal for both print and fabrication applications.

Skybond Mount is made specifically as a mounting board for self-adhesive prints and cut vinyl. Backed with a 5 year warranty, and perfect for indoor and outdoor use.

2. Roll ups and pop-ups

dtec noSCRIM Blockout Banner Matt 510 is super smooth and perfect for close-up viewing. Other PVC and polyester solutions are available for all ink types.

3. Building wraps

One Way Vision™ films allow stunning graphics on one side and a clear, unobstructed view from the other. Virtually all glass surfaces now have the potential for maximum visual impact. The perfect window graphic media for vehicle, POP, retail and commercial window signage.

4. Soft signage

Spicers offer a range of canvases, wall coverings, banners and repositionable materials to create a unique look and feel compared to traditional signage and graphics.

5. Banners

dtec Banner incorporates frontlit banner, light and heavy weight blockout banner and no scrim backlit / blockout banner. The dtec range has the answer for all banner applications, indoor or out.

6. Street furniture

Yupo® FPU, with its market leading whiteness, opacity and colour reproduction is the media of choice for both frontlit and backlit street furniture applications.

7. Street graphics

3M™ Scotchcal™ Graphic Film 3662-10 with **3M™ Scotchcal™ Matte Overlamine 3647** is a textured PVC film solution engineered for use on unsealed, exterior, pedestrian surfaces such as concrete, asphalt and brick pavers. It offers excellent hiding power and is easily removed with little to no adhesive residue on unsealed surfaces. Latex, UV, solvent, and eco-solvent printable.

8. Window graphics and decals

Yupo® Octopus Clear is an optically clear, removable and reusable self adhesive polyester film that can be reverse printed (UV screen and UV Inkjet) and applied to the inside of windows with the graphic facing outwards.

dtec Polyfrost is a specialty matt, self adhesive vinyl specifically made for glass and window decorations.

Vehicle graphics

1. Vehicle wraps and decals

3M™ Controltac™ Graphic Film with Comply™ v3 Adhesive IJ180Cv3, 3M™ Controltac™ Wrap Film with Comply™ v3 Adhesive IJ380Cv3 and 3M™ Envision™ Print Wrap Film 480Cv3 are a series of removable cast digital vinyls that provide excellent conformability to simple and complex curves, rivets, deep corrugations and irregular surfaces. These should always be used in conjunction with the correct matching graphic protection products: **3M™ Scotchcal™ Gloss Overlamine 8518, 3M™ Scotchcal™ Lustre Overlamine 8519, 3M™ Scotchcal™ Matte Overlamine 8520, 3M™ Scotchcal™ Gloss Overlamine 8580, or 3M™ Envision™ Gloss Wrap Overlamine 8548G** for guaranteed solutions.

3M™ Scotchlite™ Removable Reflective Graphic Film with Comply™ Adhesive IJ680CR-10 is a range of reflective vinyls suitable for emergency vehicles and water craft. Latex, screen, UV, solvent, and eco-solvent printable.

2. Vehicle window graphics

One Way Vision™ films allow stunning graphics on one side and a clear, unobstructed view from the other. Virtually all glass surfaces now have the potential for maximum visual impact. One Way Vision™ is the perfect window graphic media for all types of vehicles.

Corporate signage

1. General signage

dtec Foamed PVC, high white, high density board for flat or 3D applications, printed or fabricated. It is the ideal substrate for a range of sign and display projects.

Skybond Print aluminium composite panel is available in a range of thicknesses and colours, and carries a 10 year warranty. Ideal for both print and fabrication applications.

Skybond Mount is made specifically as a mounting board for self-adhesive prints and cut vinyl. Backed with a 5 year warranty, and perfect for indoor and outdoor use.

2. Illuminated Signage

Graphex Opal was developed specifically for backlit sign and display applications including light boxes and menu boards. Engineered to diffuse light evenly over the material, Graphex Opal is made from polypropylene, and is 100% recyclable code 5.

Interior fit-out

1. Wall covering

Photo-TEX is a polyester blend self adhesive fabric that will stick to any non-porous surface, walls, windows, doors, columns, poles and so on. With a specially engineered low tack self adhesive that is removable, repositionable and reusable, Photo-TEX is the perfect choice for personalised wall covering in corporate, retail and home environments.

3M™ Scotchcal™ Graphic Film IJ35C, 3M™ Scotchcal™ Graphic Film IJ40 and 3M™ Scotchcal™ Graphic Film with Comply™ Adhesive IJ40C with 3M™ Scotchcal™ Overlaminates 8508, 8509, IJ40-114, IJ40-124 are a range of opaque polymeric PVC films suitable for smooth walls with 'dry apply' application method. Suitable for both indoor and outdoor applications.

2. Wall cladding

Vanity Board™ is a direct printable mirrored acrylic panel. Lighter and cheaper than glass, it is also shatter proof.

Skybond Print is an aluminium composite panel available in a range of thicknesses and colours, and carries a 10 year warranty. Ideal for both print and fabrication applications.

Skybond Mount is made specifically as a mounting board for self-adhesive prints and cut vinyl. Backed with a 5 year warranty, and perfect for indoor and outdoor use.

3. Flooring

G-Floor Graphic™ the digital inkjet floor media, allows you to produce customised flooring or floor mats. It easily handles both heavy foot and vehicle traffic, providing the ultimate in image protection for up to five years. G-Floor Graphic™ allows for greater durability and versatility than traditional vinyl floor graphics.

4. Furniture

X-Board® the versatile, recycled, closed cell fibre sheet is perfect for branded promotional, temporary and event furniture. X-Board® has a high strength-to-weight ratio and allows freedom in design to create complex shapes and display. X-Board® creates brand theatre, allowing you to showcase your products and customers to interact with your products in a way that no other media can.

5. General graphics

We offer a wide selection of self adhesive products for internal signage and displays, giving a multitude of creative choices. From electrostatic and suction products, to self adhesive vinyls and specialty frosted window products.
